Allen Theatres Opens in Mesa Village

Alamogordo, N.M.

Allen Theatres' Aviator 10 movie theater opened its doors on November 16, just in time for the holiday season.

Ranack Construction, general contractor from Loveland, Colorado, along with various local contractors provided the hard work and material necessary to complete the theater on time. The brand new complex consists of ten movies screens and seating for approximately 1500 people. Stadium seating and state-of-the-art digital projection are available in all theatres.

The Aviator 10 will host The White Sands International Film Festival in March 2008. The Festival offers filmmakers the opportunity to learn, grow and exhibit their films. The festival also offers attendees quality films, expanding their knowledge of cinema and enhancing their appreciation of the filmmaking process. Film professionals and the interested public have the opportunity to gain industry knowledge through workshops and seminars and interaction within a festival

environment. The Festival also offers all attendees the opportunity to visit the beautiful country, facilities and pursuits that Alamogordo and Southern New Mexico has to offer.

Mesa Village is excited to have such an amazing building as part of its "Master Planned" community. Allen Theatres' Aviator 10 is a great anchor point for the development and will draw many citizens of Alamogordo and the surrounding areas. The quality of the construction will assure that the Aviator 10 will be an asset to Alamogordo for many years to come.
